In supplementation of the March 11 response to the office action mailed October 11, 2002, please enter the following amendments and remarks:

IN THE CLAIMS

Please rewrite claim 11 to read as follows:

11 (amended). An expression vector which is a recombinant DNA molecule or a purified DNA molecule, other than a whole chromosome, comprising a promoter sequence operably linked to a coding sequence, said coding sequence encoding a polypeptide comprising an epitope specifically bound by monoclonal antibody SM3, which polypeptide comprises a repeat sequence corresponding to a series of 20 consecutive amino acids within the 40 amino acid double repeat sequence
